

**Protect your real estate and mortgage documents. Go paperless with DocCentral™ for the utmost efficiency, safety and security.**

## Simple. Smart. Secure.

Lost documents, paper cuts and unnecessary postage are problems of the past with DocCentral™ – a simple and intuitive platform that enables your agents to share and manage all their documents online, with the utmost safety and security.

Your agents will be able to stay on top of all their paperwork and eliminate shipping costs, delays and misplaced files. And in a world of devastating natural disasters, DocCentral's secure online document repository will bring peace of mind to your agents and to their customers.

## Less Paper. More Control.

- Digitize, store and share all real estate/ mortgage documents online.
- 24/7 secure access to all your files.
- Easily digitize documents via fax, e-mail or direct upload.
- E-mail or fax documents out of DocCentral.
- Share any document with your contacts, or keep them private.
- System logs who has viewed a document and when.
- Public access feature with e-mail notification.
- Integrates with DocuSign e-signature service for a true paperless solution.
- Protect your files from natural disasters.
